WHY THE CABLE-DOCK® DESKTOP?

The Cable-Dock is a patented, truly innovative and proven method for effectively securing a laptop computer for mobile professionals. We believe the Cable-Dock is the best way to secure a laptop because:

- ...we provide shock absorbing pads while others don't.
- ...we allow air to circulate underneath the laptops while others don't.
- ...we embrace and conform to the whole body of the laptop rather than just contain the edges and sides as others do.
- Why? All laptops are not equal in shape.
- ...we have built-in back-up for keeping the laptop secure in case cable latch release is accidentally opened while others don't.
- ...we mount all sizes of laptops while others can't.
- ...we are lightweight at 3.4 lbs with two adjustments for set-u while others weigh 9-10 lbs with 7-10 adjustments.
